MediWound to Host Second Quarter 2016 Financial Results Conference Call on July 28, 2016 at 8:30 a.m. Eastern Time

YAVNE, Israel, July 21, 2016 (GLOBE NEWSWIRE) -- MediWound Ltd. (Nasdaq:MDWD), a fully-integrated, biopharmaceutical company bringing innovative therapies to address unmet needs in severe burn and wound management, today announces that the Company will release financial results for the three and six months ended June 30, 2016, at 7:00 a.m. Eastern time on July 28, 2016.

Following the release, MediWound's management will host a conference call for the investment community beginning at 8:30 a.m. ET on Thursday, July 28, 2016, to discuss the financial results and to answer questions.

Shareholders and other interested parties may participate in the conference call by dialing (877) 602-7189 (domestic) or (678) 894-3057 (international) and entering passcode 45894739. The call also will be broadcast live on the Internet on the Company's website at www.mediwound.com.

A replay of the call will be accessible two hours after its completion through August 4, 2016 by dialing (855) 859-2056 (domestic) or (404) 537-3406 (international) and entering passcode 45894739. The call will also be archived on the Company website for 90 days at www.mediwound.com.

About MediWound Ltd.

MediWound is a fully-integrated biopharmaceutical company focused on developing, manufacturing and commercializing novel therapeutics based on its patented proteolytic enzyme technology to address unmet needs in the fields of severe burns, chronic and other hard-to-heal wounds. MediWound's first innovative biopharmaceutical product, NexoBrid[®], received marketing authorization from the European Medicines Agency as well as the Israeli and Argentinian Ministries of Health, for removal of dead or damaged tissue, known as eschar, in adults with deep partial and full-thickness thermal burns and was launched in Europe, Israel, and Argentina. NexoBrid represents a new paradigm in burn care management, and clinical trials have demonstrated, with statistical significance, its ability to non-surgically and rapidly remove the eschar earlier and without harming viable tissue.

MediWound's second innovative product, EscharEx[®], is a topical biological drug being developed for debridement of chronic and other hard-to-heal wounds and is complementary to the large number of existing wound healing products, which require a clean wound bed in order to heal the wound. EscharEx contains the same proteolytic enzyme technology as NexoBrid, and benefits from the wealth of existing development data on NexoBrid. In two Phase 2 studies, EscharEx demonstrated safety and efficacy in the debridement of chronic and other hard-to-heal wounds, within a few daily applications.
