

## NexoBrid® Receives Marketing Authorization from Peru's Ministry of Health

June 4, 2019

### Avalon Pharmaceutical Peru S.A.C., MediWound's exclusive distributor, plans commercial launch for first half of 2020

YAVNE, Israel, June 04, 2019 (GLOBE NEWSWIRE) -- MediWound Ltd. (Nasdaq: MDWD), a fully-integrated biopharmaceutical company bringing innovative therapies to address unmet needs in severe burn and wound management, today announced receipt of authorization from the Ministry of Health in Peru to market and distribute NexoBrid for the removal of dead or damaged tissue, known as eschar, in adults with deep partial and full-thickness thermal burns. Avalon Pharmaceutical Peru S.A.C, MediWound's exclusive distribution partner in Peru, received the marketing authorization and intends to launch NexoBrid in Peru in the first half of 2020.

This regulatory approval builds upon the European Medicines Agency (EMA) marketing authorization for the same indication and again validates MediWound's strategy of using the EMA approved registration file for seeking approval in different international markets around the globe.

"We are delighted to receive marketing approval in Peru and that NexoBrid now will be available to treat patients who are suffering from severe burns in that region. This approval in Peru, which joins the marketing authorizations from the European Medicines Agency (EMA), the Israeli, Argentinian, South Korean and Russian Ministries of Health, builds on our global commercial strategy of expanding the use of NexoBrid in international markets and obtaining additional marketing approvals, through collaboration with companies that possess the expertise in the local regulatory, marketing, and market access and assume the financial commitment and diligence," stated Sharon Malka, Chief Executive Officer of MediWound. "We are very pleased to be able to advance burn care in Peru with NexoBrid, an effective and minimally invasive treatment modality. Avalon Pharmaceuticals, our exclusive distributor in Peru, Colombia, Chile, Ecuador and Panama, is an excellent partner in this Latin America, and we look forward to continuing to expand on our global reach in this region."

#### About MediWound Ltd.

MediWound is a fully-integrated biopharmaceutical company focused on developing, manufacturing and commercializing novel therapeutics based on its patented proteolytic enzyme technology to address unmet needs in the fields of severe burns, chronic and other hard-to-heal wounds. MediWound's first innovative biopharmaceutical product, NexoBrid® demonstrated in clinical trials, with statistical significance the ability to non-surgically and rapidly remove the eschar earlier and, without harming viable tissue. The product has received marketing authorization from the European Medicines Agency as well as the Israeli, Argentinian, South Korean and Russian Ministries of Health. MediWound's second innovative product, EscharEx® is a topical biological drug for the debridement of chronic and other hard-to-heal wounds using the same proteolytic enzyme technology as NexoBrid. In two Phase 2 studies, EscharEx has demonstrated safety and efficacy in the debridement of chronic and other hard-to-heal wounds, within a few daily applications.
